Summary

Adaptable and solution-focused Python developer with a strong foundation in Python, Django, and SQL. Experienced in building efficient and scalable web applications, with a focus on backend development and database management. Quick learner with excellent problem-solving skills and a passion for staying updated with industry trends. Seeking to contribute technical expertise in a dynamic and growth-oriented environment.

Skills

- Python
- SQL
- HTML
- Django
- Git
- CSS

Projects

Blogging Platform using Django:

- Developed a full-stack blogging platform using Django, enabling users to create, publish, and manage blog posts.
- Implemented user authentication, allowing secure access and personalized content management.
- Built CRUD (Create, Read, Update, Delete) functionality for posts, along with category filtering and comment sections.

Resume uploader using Django:

- Developed a Resume Uploader Application using Django, allowing users to upload, view, and download resumes with secure file handling and validation.
- Implemented Django models with FileField for efficient resume storage and used Django's ORM for managing user and file data.
- Designed dynamic forms and templates to streamline the resume submission process, ensuring a user-friendly interface and smooth file upload experience.

Translator App using Django:

- Developed a web-based Translator App using Django to translate text into multiple languages.
- Implemented GET and POST request handling for translating text and displaying output efficiently.
- Utilized Django's views and template system to dynamically render the translated text on the frontend.

Education

Civil engineering – Sarvottam Institute of Technology and Management
Greater Noida, India

2015 - 2019
